# Hotels

Clever Travel can offer group rates at Dubai and Abu Dhabi hotels through our global contracting partner HelmsBriscoe. Group rates apply with a minimum of 10 rooms/night. If booking less than 10 rooms we access local FIT contracted rates which are often lower than online rates. Different T&Cs apply to these rates. We always offer transparent rates for groups of minimum 10 rooms/night with no surcharges or margins. The contract can be signed directly with the hotel or via Clever Travel where we are also contracting the itinerary. We have seen and often stayed at most of the hotels in Dubai and Abu Dhabi, and based on experience we know what appeals to different markets in terms of budget and location. In Dubai, location is often the most crucial point to consider as the city footprint is large and traffic can be heavy at certain times of the day. Hence we always recommend hotels based on the client's interest, itinerary request, need for twins, length of stay and budget. We have researched hotels in both Dubai and Abu Dhabi that we can recommend depending on these factors provided by the client. Note that all prices for the hotels in these documents are starting prices for a single room during peak season September - April and the prices are in AED per night per room, inclusive of taxes and breakfast. The prices in Dubai/Abu Dhabi have changed a lot since the pandemic. The starting prices in this document are based on previous client requests during peak season 2021-2023 - exact prices are given depending on hotel occupancy and chosen dates.
